Keys to Collaboration	Hardly Ever	Some of the Time	Most of the Time	Almost Always
We always work together and share our ideas.				
We all did our part and everyone did their fair share.				
We listened to directions the first time and stayed on task.				
We listened to others and respected each other.				
We solved problems without hurting each other's feelings.				
We stayed in our groups and raised our hands for directions.				
We accomplished today's goals.
